Culture House Background	

The Culture House (CH) is a bold new community-initiative which will make the heritage landscape of the UK more diverse and inclusive. It will tell the story of the British Somali, East African and Black communities who have put down roots in the UK over the past decades but remain on the fringes of the national cultural consciousness. The core activity of CH is to preserve tangible and intangible Somali cultural assets and present them to diverse publics, in the community's authentic voice. By doing this, it will illuminate their complex and varied experiences and their evolving multi-layered identities, exploring and revealing narratives of origin, displacement, migration, and adaptation.

CH has five components:

1. **Heritage displays and exhibitions:** Culture House has a large collection of heritage items, e.g., paintings, sculptures, traditional and contemporary household artefacts, working implements, ornaments, clothing, and books from

and about black communities and artefacts will be expertly preserved to withstand the rigours of life as display items.

2. **Resource space:** This space will hold resources on Somali heritage, eg. books, leaflets, stamps, posters depicting facets of Somali heritage and culture.
3. **Learning space:** We will offer heritage lectures, demonstrations, workshops, readings (poetry/ prose), oral history presentations etc.
4. **Archive:** Culture House has more artefacts in its collection than it can display at one time. Non-displayed items will be preserved and stored in a physical archive.
5. **Online platform:** This will help expand reach significantly and make the heritage offering accessible to a wider public across the UK and beyond, including those who cannot physically travel to us.
